

## Declaration

<b>To:</b>	To Whom it may concern
<b>Subject:</b>	Declaration about compliance with the country code settings specified in KDB 594280
<b>Device name:</b>	Integrated Service Access Point (ISAP)
<b>FCC ID:</b>	V27-DT40ISAP

Herewith, we, Elektrobit Wireless Communications, declare that the WLAN Access Point model:

**ISAP (Integrated Service Access Point)**  
**FCC ID: V27-DT40ISAP**

Is compliant with the country code settings specified in KDB 594280.

ISAP is a part of bigger system (BMW iTools, Workshop Service System) and can be operated only together with other tools of this system. Before any wireless operation is enabled the ISAP must be registered via BMW System Database.

During this registration process the correct operating country code is assigned automatically based on the location of the Workshop and its System Server. The end user has no possibility to change the country code manually afterwards.
